Dear Sir/Ma'am,

To nurture future innovators and thought leaders, the Science & Engineering Research Board (SERB), Department of Science and Technology (DST), Govt. of India, the Indo-U.S. Science and Technology Forum (IUSSTF) and WINStep Forward have partnered to support a dynamic and transformative student exchange program between premier institutions in India and the United States. The program is named in honor of Satyendra Nath Bose (1894 – 1974), a visionary Indian physicist best known for his work on quantum mechanics in the early 1920s.

The S.N. Bose Scholars Program provides an opportunity to Indian students (currently enrolled in a Bachelors or Masters' degree in Atmospheric and Earth Sciences; Chemical Sciences; Engineering; Mathematical and Computational Sciences; and Physical Sciences) to undertake research at the various US Universities in the summer of 2016 for a period of 10-12 weeks.

I request you to kindly nominate 2 meritorious students from your department i.e. 2 applications per stream, per department, per institute. For this purpose, for example, the usual two years Masters in physics and Integrated Masters in Physics may be counted as 2 different streams and 2 different applications.

The application deadline is 31st October 2016. Kindly refer to the Program Brochure mentioned in the following link for more information. If you have any questions, please contact my colleague Dr. Nishritha Bopana at bose@indousstf.org. All applications will be received through our Online Application Portal [click on the link for more information on the application process].

We look forward to receiving suitable applications from your institution.

Regards

Rajiv

Dear Sir/Madam,

To nurture future innovators and thought-leaders, the Science & Engineering Research Board (SERB), Department of Science and Technology (DST), Govt. of India, the Indo-US Science and Technology Forum (IUSSTF) and WellSight Foundation have initiated a bi-lateral and transformative student exchange program between premier institutions in India and the United States. The program is named in honor of Satyendra Nath Bose (1894 - 1974), a visionary Indian physicist best known for his work on quantum mechanics in the early 1920s.

The S.N. Bose Scholars Program provides an opportunity to Indian students (currently enrolled in a Bachelor's or Masters degree in Atmospheric and Earth Sciences, Chemical Sciences, Engineering, Mathematical and Computational Sciences, and Physical Sciences) to undertake research at the various US universities in the summer of 2016 for a period of 10-12 weeks.

I request you to kindly nominate 2 meritorious students from your department i.e. 2 applications per stream per department per institute. For the purpose, for example, the usual two years Masters in Physics and Interdisciplinary in Physics may be counted as 2 different streams and 2 separate applications.

The application deadline is 31st October 2015, kindly refer to the Program brochure mentioned in the following link for more information. If you have any questions, please contact my colleague Dr. Manish K. Chopra at manish@iustf.org. All applications will be received through our Online Application Portal (click on the link for more information on the application process).

The link below will allow you to specify a form for your institution.
