

INTRODUCTION

The primary objective of this workshop is to bring together all the professionals from academic institutions and research scholars to enhance their knowledge on hazard risk and mitigation of buildings and structures. In conformity of the same, the prime objective of this workshop is to share the knowledge of hazard mitigation of onshore and offshore structures and to extend the service to the society in the direction of sharing the practical knowledge in the design and construction of buildings, bridges and offshore structures. Moreover, irrespective of industries, academia and research, it aims to do research in the field of hazard mitigation in Civil Engineering for this region with existing expertise and facilities in collaboration with other reputed institute, organization and industries.

OBJECTIVES

To provide the concepts and principles on hazard risk and mitigation for buildings, bridges and offshore structures.

To inculcate the design aspects and research updates in hazard mitigation.

To provide case studies on various types of structures related with hazards.

CONTENTS

Earthquake Hazard Assessment
Engineered Preparedness for Hazard Mitigation
Risk Assessment
Risk Reduction Strategies
Case Studies

HIGHLIGHTS OF THE PROGRAMME

Technical sessions and discussions will be conducted by the expert faculties/scientists of various premier organizations like IITs, NITs and other reputed Universities.

TENTATIVE EXPERT SPEAKERS

1. Prof. M.C. Deo, IIT Bombay
2. Prof. Rajesh Kumar, NIT Warangal
3. Prof. S. Chakraborty, IEST Shibpur
4. Prof. Subba Rao, NIT Surthakal
5. Prof. Katta Venkataramana, NIT Surathkal
6. Dr. Sudib Kumar Mishra, IIT Kanpur

ABOUT THE INSTITUTE

National Institute of Technology, Silchar is one of the thirty one National Institutes of Technology of India and was established in 1967 as a Regional Engineering College in Assam. In 2002 it was upgraded to the status of National Institute of Technology and was declared as Institute of National Importance under the National Institutes of Technology Act, 2007. The climate of Silchar during April is rainy with normal temperature around 30°C. NIT Silchar is a fully residential institution with ten hostels for boys, three hostels for girls and one for married scholar. It has six engineering degree offering branches and five non-engineering branches. It conducts various programmes, including organizing the workshops, seminars, conferences, invited talks etc. in collaboration with different academic departments, institutes and reputed multinational and national industries.
